

Credits for Figures and Color Plates

Dr. John Herndon collaborated with the author on the computation of many of black and white figures in Chapters I–IX.

The Orchard Subset of $\mathbb{R}^2$, Figure III.46 was computed by Henry Strickland.

Figure VI.163 was produced by Peter Massopust.

The figures in Chapter X were produced by Louisa Anson.

The following list gives the author of each color image. The italics indicate who did most of the work.
